HLF 3600i-ts

touch screen bean to cup coffee machine

Fresh Beans & Powdered Milk

Meet the HLF 3600i-ts. **Modern technology** meets classic style in this excellent bean to cup coffee machine.

The HLF 3600i-ts utilises **fresh** beans and powdered milk for great coffees with **convenience** and ease of cleaning. It also has an internal canister for hot chocolate.

This **flexible** functionality allows the customer to choose from 12 different drinks. The touch screen makes drink selection easy and even allows you to run your own adverts.

up to 100 cups per day

- Can produce up to 100 cups per day.
- Uses fresh beans for the best possible drink quality.
- Intuitive touch screen, perfect for self service or staff use with minimal training.
- Choose from 12 different drinks, all of coffee shop quality, at the touch of a button.
- Full metal body ensures the HLF 3600i-ts is hard wearing, and has a simple yet elegant style.
- Built in 3.5lt water tank or can be mains fed.
- Twin boilers, separate steam and hot water, allow for a faster service.

bean to cup coffee machine

touch screen technology

more than just a drink selection

see the touch screen benefits

Our touch screen technology gives more than just the ability to select your drink. Based on the Microsoft Windows XP[®] operating system with our custom built software installed, the HLF 3600i-ts provides features far beyond those of a humble coffee machine.

User friendly experience

Touch screen drink selection makes choosing and ordering your drink an easy and fun experience.

Simplicity

The HLF 3600i-ts is perfect for the self-service environment or for staff use with minimal training.

Advertising platform

The built in video player can be used to show your latest TV advert, in store promotion or can even be used by your staff to watch our video cleaning guides.

Anywhere access

With wired or Wi-Fi internet access, you can connect to the HLF 3600i-ts from anywhere in the world. This allows you to check drink counters, change machine settings, upload your latest video advert or even send information by email.

Remote maintenance

With the internet connection our engineers can dial in, perform diagnostics and work on the machine remotely, making sure that any necessary downtime is kept to absolute minimum.

Our in-built video player allows you to show your latest tv adverts, instore offers or even our helpful cleaning videos right there on the touch screen. With remote access via the internet and 8GB onboard memory, your videos can be simply updated from anywhere in the world.
