HLF 5600i-ts

touch screen bean to cup coffee machine

Fresh Beans & Powdered Milk

The HLF 5600i-ts is our flagship bean to cup coffee machine. This high capacity machine combines **technical excellence** with versatility, convenience and clean simple styling. **Fresh** beans and powdered milk make for great coffees with **convenience** and ease of cleaning. An internal canister also allows for hot chocolate and mocha. The touch screen makes drink selection easy and even allows you to run your own adverts.

up to 500 cups per day

- Can produce up to 500 cups per day with the option of making 2 drinks at once.
- Dual bean hoppers and twin grinders allow for fresh bean and fresh bean decaf coffee.
- Uses fresh beans for the best possible drink quality.
- Intuitive touch screen, perfect for self service or staff use with minimal training.
- Choose from 12 different drinks, all of coffee shop quality, at the touch of a button.
- Full metal body ensures the HLF 5600i-ts is hard wearing, easy to clean and has a simple yet elegant style.
- Twin boilers, separate steam and hot water, allow for a faster service.
- Conical grinder blades for improved grinding and longer life.

bean to cup coffee machine

touch screen technology

more than just a drink selection

see the touch screen benefits

Our touch screen technology gives more than just the ability to select your drink.

Based on the Microsoft Windows XP® operating system with our custom built software installed, the HLF 5600i-ts provides features far beyond those of a humble coffee machine.

User friendly experience

Touch screen drink selection makes choosing and ordering your drink an easy and fun experience.

Simplicity

The HLF 5600i-ts is perfect for the self-service environment or for staff use with minimal training.

Advertising platform

The built in video player can be used to show your latest TV advert, in store promotion or can even be used by your staff to watch our video cleaning guides.

Anywhere access

With wired or Wi-Fi internet access, you can connect to the HLF 5600i-ts from anywhere in the world. This allows you to check drink counters, change machine settings, upload your latest video advert or even send information by email.

Remote maintenance

With the internet connection our engineers can dial in, perform diagnostics and work on the machine remotely, making sure that any necessary downtime is kept to absolute minimum.

Our in-built video player allows you to show your latest tv adverts, instore offers or even our helpful cleaning videos right there on the touch screen. With remote access via the internet and 8GB onboard memory, your videos can be simply updated from anywhere in the world.
